

THE ADVISORS' INNER CIRCLE FUND III

Democratic Large Cap Core ETF (the "Fund")

**Supplement dated April 13, 2021
to the Fund's Prospectus and Statement of Additional Information (the "SAI"),
each dated November 2, 2020, as supplemented**

This supplement provides new and additional information beyond that contained in the Prospectus and SAI and should be read in conjunction with the Prospectus and SAI.

The name of the Fund's index has changed from the "DEMZ Political Contribution Index" to the "Democratic Large Cap Core Index." Therefore, effective immediately, all references to "DEMZ Political Contribution Index" are hereby deleted and replaced with "Democratic Large Cap Core Index".

Please retain this supplement for future reference.

THE ADVISORS' INNER CIRCLE FUND III

DEMZ Political Contributions ETF (the "Fund")

**Supplement dated March 1, 2021
to the Fund's Prospectus and Statement of Additional Information (the "SAI"),
each dated November 2, 2020, as supplemented**

This supplement provides new and additional information beyond that contained in the Prospectus and SAI and should be read in conjunction with the Prospectus and SAI.

On March 5, 2021 (the "Effective Date"), the name of the Fund will change to the "Democratic Large Cap Core ETF," and corresponding changes in the "Principal Investment Strategies" section of the Prospectus will be made.

Accordingly, as of the Effective Date, the Prospectus and SAI are hereby amended and supplemented as follows:

1. *All references to "DEMZ Political Contributions ETF" in the Prospectus and SAI are hereby deleted and replaced with "Democratic Large Cap Core ETF."*
2. *The first paragraph of the "Principal Investment Strategies" section of the Prospectus is hereby deleted and replaced with the following:*

The Fund uses a "passive management" (or indexing) approach in seeking to achieve its investment objective. The Index was developed by Reflection Asset Management, LLC, the Fund's investment adviser and index provider (the "Adviser"). The Index is a subset of the S&P 500® Index (the "S&P 500") designed to provide exposure to large capitalization companies that make political contributions to Democratic Party candidates and political action committees above a certain threshold. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in securities of companies included in the Index. This policy may be changed upon 60 days' prior written notice to shareholders. The Adviser considers a large capitalization company to be any company included in the S&P 500. Because the Index is a subset of the S&P 500, the Adviser considers any company included in the Index at the time of purchase to be a large capitalization company.

Please retain this supplement for future reference.

The U.S. Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with the Fund, you can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by calling toll-free to 888-750-3369 (888-750-DEMZ). Your election to receive reports in paper will apply to all funds held with your financial intermediary if you invest through a financial intermediary.

DEMZ POLITICAL CONTRIBUTIONS ETF

Investment Objective

The DEMZ Political Contributions ETF (the “Fund”) seeks to track the total return performance, before fees and expenses, of the DEMZ Political Contribution Index (the “Index”).

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.

Annual Fund Operating Expenses(expenses that you pay each year as a percentage of the value of your investment)

Management Fee	0.45%
Other Expenses*	0.00%
Total Annual Fund Operating Expenses	0.45%

* Other Operating Expenses are based on estimated amounts for the current fiscal year.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years
\$46	\$144

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in

higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the Example, affect the Fund's performance. Because the Fund has not commenced operations as of the date of this prospectus, it does not have portfolio turnover information to report.

Principal Investment Strategies

The Fund uses a “passive management” (or indexing) approach in seeking to achieve its investment objective. The Index was developed by Reflection Asset Management, LLC, the Fund's investment adviser and index provider (the “Adviser”). The Index is a subset of the S&P 500[®] Index (the “S&P 500”) designed to provide exposure to companies that make political contributions to Democratic Party candidates and political action committees above a certain threshold. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in securities included in the Index. This policy may be changed upon 60 days' prior written notice to shareholders.

The Index construction process begins with a universe of companies that 1) are current members of the S&P 500; and 2) direct at least 75% of their total corporate political contributions during an election cycle to Democratic Party candidates (as determined by the candidates' declared party allegiance and registration) and political action committees registered with the Democratic Party. A company's political contributions include the contributions of the company's senior management disclosed in the company's federal regulatory filings. This universe is licensed by the Adviser from Blue ETFs, Inc. (“Blue”), which obtains the universe of companies through a review of contribution data obtained from the Federal Election Commission (the “FEC”).

The Index methodology then applies a financial model to the universe of companies to determine the weight of each company in the Index. The financial model determines a profile for each company based on its underlying characteristics (for example, economic sector, earnings and correlation to other constituents, among other characteristics) measured over a trailing 18-month time horizon. The financial model also applies two rules to the universe:

- 1) No position can be added to the Index at higher than a 5% allocation; and
- 2) No sector (as defined by the Global Industry Classification Standard (“GICS”), a widely recognized industry classification

methodology developed by MSCI, Inc. and S&P Dow Jones Indices LLC (“SPDJ1”), may deviate from the S&P 500 weighting by more than +/- 5% at the beginning of each quarter.

Together, these rules are designed to limit Index exposure to any particular security and any particular sector and to help the Index more closely track the S&P 500. Within these rules, the model then analyzes various combinations of company weights, based on the companies’ profiles, and determines a combination designed to minimize the difference in the performance between the Index and the S&P 500. The application of the financial model is rules-based, and thus the Adviser, as index provider, does not exercise discretion in selecting, weighting, and maintaining the Index components that result from such application.

Blue provides to the Adviser an updated universe of companies that satisfy the political contributions screen on a quarterly basis in connection with the quarterly rebalancing of the S&P 500. The Adviser, as index provider, rebalances the Index in accordance with the Index methodology so that the Index is rebalanced on the same quarterly schedule as the S&P 500. Positions that are removed from the S&P 500 for any reason between quarterly rebalances are removed from the Index at such time. New positions added to the S&P 500 can only be added to the Index at a quarterly rebalance. If the political contributions of a company included in the Index fall below the 75% threshold discussed above, such company will be removed from the Index at the next rebalancing. The Adviser, as index provider, expects that the Index typically will include 40-60 companies.

The FEC has jurisdiction over the financing of campaigns for the U.S. House of Representatives, Senate, Presidency and Vice Presidency. The Index does not take into account political contributions that are not reported to the FEC (“Excluded Contributions”), such as contributions to state and local elections and organizations that qualify for tax exemption under Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the “Code”).

The Fund will generally invest all, or substantially all, of its assets in the component securities that make up the Index. The Fund will use a replication methodology, meaning it will invest in all of the securities composing the Index in proportion to their respective weightings in the Index.

In replicating the Index, the Fund may from time to time invest a significant portion of its assets in the securities of companies in one or more economic sectors. As of the date of this Prospectus, the Fund has significant exposure to the Information Technology sector, as defined by GICS.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any other government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below.

Equity Market Risk — The risk that stock prices will fall over short or extended periods of time, sometimes rapidly and unpredictably. The value of equity securities will fluctuate in response to factors affecting a particular company, as well as broader market and economic conditions. Broad movements in financial markets may adversely affect the price of the Fund's investments, regardless of how well the companies in which the Fund invests perform. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund. Moreover, in the event of a company's bankruptcy, claims of certain creditors, including bondholders, will have priority over claims of common stock holders such as the Fund.

Common Stock Risk — The prices of common stock may fall over short or extended periods of time. Common stock generally is subordinate to preferred stock and debt upon the liquidation or bankruptcy of the issuing company.

Large Capitalization Risk — The risk that larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Larger companies also may not be able to attain the high growth rates of successful smaller companies.

Sector Risk — The Fund is subject to the following Sector Risk:

Information Technology Sector Risk — The Fund's investments are exposed to issuers conducting business in the Information Technology Sector. The Information Technology Sector includes companies that offer software and information technology services, manufacturers and distributors of technology hardware and equipment such as communications equipment, cellular phones,

computers and peripherals, electronic equipment and related instruments and semiconductors. The Fund is subject to the risk that the securities of such issuers will underperform the market as a whole due to legislative or regulatory changes, adverse market conditions and/or increased competition affecting the Information Technology Sector. The prices of the securities of companies operating in the Information Technology Sector are closely tied to market competition, increased sensitivity to short product cycles and aggressive pricing, and problems with bringing products to market.

Issuer-Specific Risk — Fund performance depends on the performance of individual securities to which the Fund has exposure. Issuer-specific events, including changes in the financial condition of an issuer, can have a negative impact on the value of the Fund.

ETF Risks — The Fund is an exchange-traded fund (“ETF”) and, as a result of this structure, it is exposed to the following risks:

Index Tracking Risk — The Fund’s return may not match or achieve a high degree of correlation with the return of the Index.

Passive Investment Risk — The Fund is not actively managed and therefore the Fund would not sell a security due to current or projected underperformance of the security, industry or sector, unless that security is removed from the Index or selling the security is otherwise required upon a rebalancing of the Index.

Trading Risk — Shares of the Fund may trade on The NASDAQ Stock Market (the “Exchange”) above or below their NAV. The NAV of shares of the Fund will fluctuate with changes in the market value of the Fund’s holdings. In addition, although the Fund’s shares are currently listed on the Exchange, there can be no assurance that an active trading market for shares will develop or be maintained. Trading in Fund shares may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in shares of the Fund inadvisable.

Methodology Risk — The Fund seeks to track the performance of the Index, which is based on a construction methodology that utilizes financial modeling. No assurance can be given that stocks of companies chosen for the Index will outperform stocks of other companies. Moreover, there is no guarantee or assurance that the methodology used to create the Index will result in the Fund achieving positive investment returns or outperforming other investment products.

The FEC imposes strict standards regarding the reporting of political contribution data, and violations of such standards may constitute a federal crime. Nevertheless, to the extent that a company fraudulently reports contribution data, such data may cause a company to be included in the Index when such company otherwise would be excluded absent such fraud. Further, FEC contribution data does not include Excluded Contributions and thus may not reflect all political contributions made by a company, including its senior management. Therefore, the Index's sole reliance on the FEC for political contributions data may cause a company to be included in the Index that would not qualify for inclusion if the Index took into account Excluded Contributions. The inclusion of such companies in the Index could negatively affect the value of an investment in the Fund.

New Index Provider Risk — The Index was created by and is owned and maintained by the Adviser, which has not previously been an index provider or investment adviser for a registered fund, which may create additional risks for investing in the Fund. There is no assurance that the Adviser will compile the Index accurately, or that the Index will be reconstituted, rebalanced, calculated or disseminated accurately.

Limited Authorized Participants, Market Makers and Liquidity Providers Risk — Because the Fund is an ETF, only a limited number of institutional investors (known as “Authorized Participants”) are authorized to purchase and redeem shares directly from the Fund. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund shares may trade at a material discount to net asset value (“NAV”) and possibly face delisting: (i) Authorized Participants exit the business or otherwise become unable to process creation and/or redemption orders and no other Authorized Participants step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

New Fund Risk — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

Performance Information

The Fund is new, and therefore has no performance history. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund's returns and comparing the Fund's performance to a broad measure of market performance. Of course, the Fund's past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Current performance information is available by calling toll-free to 888-750-3369 (888-750-DEMZ).

Investment Adviser and Sub-Adviser

Reflection Asset Management, LLC serves as the investment adviser to the Fund. Exchange Traded Concepts, LLC serves as the sub-adviser to the Fund.

Portfolio Manager

Jason T. Britton, Chief Executive Officer of the Adviser, has managed the Fund since its inception in 2020.

Purchase and Sale of Fund Shares

The Fund issues shares to (or redeems shares from) certain institutional investors known as "Authorized Participants" (typically market makers or other broker-dealers) only in large blocks of shares known as "Creation Units." Creation Unit transactions are conducted in exchange for the deposit or delivery of a portfolio of in-kind securities designated by the Fund and/or cash.

Individual shares of the Fund may only be purchased and sold on the Exchange, other national securities exchanges, electronic crossing networks and other alternative trading systems through your broker-dealer at market prices. Because Fund shares trade at market prices rather than at NAV, Fund shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling shares in the secondary market, you may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) (the "bid-ask spread"). When available, recent

information regarding the Fund's NAV, market price, premiums and discounts, and bid-ask spreads will be available at www.demz.fund.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement account ("IRA"), in which case your distribution will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.

Index Information/Trademark License/Disclaimers

The Index is the property of the Adviser, which has licensed the Index to the Fund at no charge.

The Adviser has contracted with S&P Opco, LLC (a subsidiary of SPDJI) to calculate and maintain the Index. The Index is not sponsored by SPDJI or its affiliates or its third party licensors, including Standard & Poor's Financial Services LLC and Dow Jones Trademark Holdings LLC (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices will not be liable for any errors or omissions in calculating the Index. "Calculated by S&P Dow Jones Indices" and the related stylized mark(s) are service marks of S&P Dow Jones Indices and have been Licensed for use by the Adviser. S&P[®] is a registered trademark of Standard & Poor's Financial Services LLC, and Dow Jones[®] is a registered trademark of Dow Jones Trademark LLC.

The Fund is not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices. S&P Dow Jones Indices does not make any representation or warranty, express or implied, to the owners of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Index or the Fund to track general market performance. S&P Dow Jones Indices' only relationship to the Adviser, with respect to the Index, is the provision of the calculation

services on behalf of Reflection Asset Management, LLC related to the Index without regard to Reflection Asset Management, LLC or the Fund. S&P Dow Jones Indices is not responsible for and has not participated in the creation of the Fund, the determination of the prices and amount of the Fund or the timing of the issuance or sale of the Fund or in the determination or calculation of the equation by which the Fund may be converted into cash or other redemption mechanics. S&P Dow Jones Indices has no obligation or liability in connection with the administration, marketing or trading of the Fund. There is no assurance that investment products based on the Index will accurately track index performance or provide positive investment returns. SPDJI is not an investment adviser. Inclusion or exclusion of a security within the Index is not a recommendation by the S&P Dow Jones Indices to buy, sell or hold such security, nor is it investment advice. S&P Dow Jones Indices does not act nor shall be deemed to be acting as a fiduciary in providing the S&P 500.

S&P DOW JONES INDICES DOES NOT GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS AND/OR THE COMPLETENESS OF THE INDEX, INTELLECTUAL PROPERTY, SOFTWARE OR ANY DATA RELATED THERETO, OR ANY COMMUNICATION WITH RESPECT THERETO, INCLUDING, ORAL, WRITTEN, OR ELECTRONIC COMMUNICATIONS. S&P DOW JONES INDICES SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY OR ANY ERRORS, OMISSIONS, OR DELAYS THEREIN. S&P DOW JONES INDICES MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE OR AS TO RESULTS TO BE OBTAINED BY REFLECTION ASSET MANAGEMENT, OWNERS OF THE FUND, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX, INTELLECTUAL PROPERTY, SOFTWARE OR WITH RESPECT TO ANY DATA RELATED HERETO, WITHOUT LIMITING ANY OF THE FOREGOING. IN NO EVENT WHATSOEVER SHALL S&P DOW JONES INDICES BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME, OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND REFLECTION ASSET MANAGEMENT, LLC.

MORE INFORMATION ABOUT THE FUND'S INVESTMENT OBJECTIVE AND STRATEGIES

The Fund, using an “indexing” investment approach, seeks to track the total return performance, before fees and expenses, of the Index. A number of factors may affect the Fund’s ability to achieve a high correlation with the Index. Please refer to “Index Tracking Risk” under “More Information about Risk” below.

The investment objective of the Fund is not a fundamental policy and may be changed by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”) without shareholder approval.

MORE INFORMATION ABOUT RISK

Investing in the Fund involves risk and there is no guarantee that the Fund will achieve its goals. In fact, no matter how good of a job the Adviser and/or Sub-Adviser does, you could lose money on your investment in the Fund, just as you could with similar investments.

The value of your investment in the Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the Fund owns and the markets in which they trade. The effect on the Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings.

Equity Market Risk – Because the Fund may invest in equity securities, the Fund is subject to the risk that stock prices will fall over short or extended periods of time. Historically, the equity markets have moved in cycles, and the value of the Fund’s securities may fluctuate drastically from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by such companies may suffer a decline in response. The market as a whole may not favor the types of investments the Fund makes. Many factors can adversely affect a security’s performance, including both general financial market conditions and factors related to a specific company, industry or geographic region. In addition, the impact of any epidemic, pandemic or natural disaster, or widespread fear that such events may occur, could negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen

ways. Any such impact could adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund. Recent examples include pandemic risks related to COVID-19 and aggressive measures taken worldwide in response by governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines of large populations, and by businesses, including changes to operations and reducing staff. The impact of the COVID-19 pandemic may be short term or may last for an extended period of time, and in either case could result in a substantial economic downturn or recession. During a general economic downturn in the securities markets, multiple asset classes may be negatively affected. These factors contribute to price volatility, which is a principal risk of investing in the Fund.

Common Stock Risk — The price of common stocks may fall over short or extended periods of time. Common stock prices are sensitive to general movements in the equity markets, and a drop in the equity markets may cause the price of common stocks held by the Fund to decrease in value. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of common stock issued by such companies may suffer a decline in response. Common stock generally is subordinate to preferred stock and debt upon the liquidation or bankruptcy of the issuing company.

Large Capitalization Risk — If valuations of large capitalization companies appear to be greatly out of proportion to the valuations of small or medium capitalization companies, investors may migrate to the stocks of small and medium-sized companies. Additionally, larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in technology and consumer tastes. Larger companies also may not be able to attain the high growth rates of successful smaller companies.

Sector Risk — The Fund is subject to the following Sector Risk:

Information Technology Sector Risk — The Fund's investments are exposed to issuers conducting business in the Information Technology Sector. The Information Technology Sector includes companies that offer software and information technology services, manufacturers and distributors of technology hardware and equipment such as communications equipment, cellular phones, computers and peripherals, electronic equipment and related instruments and semiconductors. The Fund is subject to the risk that the securities of such issuers will underperform the market as

a whole due to legislative or regulatory changes, adverse market conditions and/or increased competition affecting the Information Technology Sector. The prices of the securities of companies operating in the Information Technology Sector are closely tied to market competition, increased sensitivity to short product cycles and aggressive pricing, and problems with bringing products to market.

Issuer-Specific Risk — Changes in the financial condition of an issuer, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect a security's or instrument's value. The value of securities of smaller, less well-known issuers can be more volatile than that of larger issuers. Issuer-specific events can have a negative impact on the value of the Fund.

ETF Risks — The Fund is an ETF and, as a result of this structure, it is exposed to the following risks:

Index Tracking Risk — Tracking error refers to the risk that the Adviser and/or Sub-Adviser may not be able to cause the Fund's performance to match or correlate to that of the Index, either on a daily or aggregate basis. There are a number of factors that may contribute to the Fund's tracking error, such as Fund expenses, imperfect correlation between the Fund's investments and those of the Index, rounding of share prices, the timing or magnitude of changes to the composition of the Index, regulatory policies, and high portfolio turnover rate. The Fund incurs operating expenses not applicable to its Index and incurs costs associated with buying and selling securities, especially when rebalancing the Fund's securities holdings to reflect changes in the composition of the Index. In addition, mathematical compounding may prevent the Fund from correlating with the monthly, quarterly, annual or other period performance of its index. Tracking error may cause the Fund's performance to be less than expected.

Passive Investment Risk — The Fund is not actively managed. Therefore, unless a specific security is removed from the Index, or selling that security is otherwise required upon a rebalancing of the Index as addressed in the Index methodology, the Fund generally would not sell a security because the security's issuer was in financial trouble. If a specific security is removed from the Index, the Fund may be forced to sell such security at an inopportune time or for a price other than the security's current market value. An investment in the Fund involves risks similar to those of investing in any equity securities traded on an exchange, such as market fluctuations

caused by such factors as economic and political developments, changes in interest rates and perceived trends in security prices. It is anticipated that the value of the Fund's shares will decline, more or less, in correspondence with any decline in value of the Index. The Index may not contain the appropriate mix of securities for any particular point in the business cycle of the overall economy, particular economic sectors, or narrow industries within which the commercial activities of the companies comprising the portfolio securities holdings of the Fund are conducted, and the timing of movements from one type of security to another in seeking to replicate the Index could have a negative effect on the Fund. Unlike other funds that select investments based on analyses of financial or other information relating to companies, the economy or markets, the Fund invests in companies included in the Index in accordance with its investment objective of tracking the performance of the Index. There can be no assurance that an investment in such companies would not underperform the broader market or investments with a different focus. The Fund should not be considered a complete investment program. Unlike with an actively managed fund, the Adviser does not use techniques or defensive strategies designed to lessen the effects of market volatility or to reduce the impact of periods of market decline. This means that, based on market and economic conditions, the Fund's performance could be lower than other types of mutual funds that may actively shift their portfolio assets to take advantage of market opportunities or to lessen the impact of a market decline.

Trading Risk — Although Fund shares are listed for trading on a listing exchange, there can be no assurance that an active trading market for such shares will develop or be maintained. Secondary market trading in the Fund's shares may be halted by a listing exchange because of market conditions or for other reasons. In addition, trading in the Fund's shares is subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules. There can be no assurance that the requirements necessary to maintain the listing of the Fund's shares will continue to be met or will remain unchanged.

Shares of the Fund may trade at, above or below their most recent NAV. The per share NAV of the Fund is calculated at the end of each business day and fluctuates with changes in the market value of the Fund's holdings since the prior most recent calculation. The trading prices of the Fund's shares will fluctuate continuously throughout trading hours based on market supply and demand. The trading

prices of the Fund's shares may deviate significantly from NAV during periods of market volatility. These factors, among others, may lead to the Fund's shares trading at a premium or discount to NAV. However, given that shares can be created and redeemed only in Creation Units at NAV, the Adviser does not believe that large discounts or premiums to NAV will exist for extended periods of time. While the creation/redemption feature is designed to make it likely that the Fund's shares normally will trade close to the Fund's NAV, exchange prices are not expected to correlate exactly with the Fund's NAV due to timing reasons as well as market supply and demand factors. In addition, disruptions to creations and redemptions or the existence of extreme volatility may result in trading prices that differ significantly from NAV. If a shareholder purchases at a time when the market price of the Fund is at a premium to its NAV or sells at time when the market price is at a discount to the NAV, the shareholder may sustain losses.

Investors buying or selling shares of the Fund in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to pay for shares (the "bid" price) and the price at which an investor is willing to sell shares (the "ask" price). This difference in bid and ask prices is often referred to as the "spread" or "bid/ask spread." The bid/ask spread varies over time for shares based on trading volume and market liquidity, and is generally lower if the Fund's shares have more trading volume and market liquidity and higher if the Fund's shares have little trading volume and market liquidity. Further, increased market volatility may cause increased bid/ask spreads. Due to the costs of buying or selling shares of the Fund, including bid/ask spreads, frequent trading of such shares may significantly reduce investment results and an investment in the Fund's shares may not be advisable for investors who anticipate regularly making small investments.

Methodology Risk – The Fund seeks to track the performance of the Index, which is based on a construction methodology that utilizes a Monte Carlo algorithm. No assurance can be given that stocks of companies chosen for the Index will outperform stocks of other companies. Moreover, there is no guarantee or assurance that the methodology used to create the Index will result in the

Fund achieving positive investment returns or outperforming other investment products.

The FEC imposes strict standards regarding the reporting of political contribution data, and violations of such standards may constitute a federal crime. Nevertheless, to the extent that a company fraudulently reports contribution data, such data may cause a company to be included in the Index when such company otherwise would be excluded absent such fraud. Further, FEC contribution data does not include Excluded Contributions and thus may not reflect all political contributions made by a company, including its senior management. Therefore, the Index's sole reliance on the FEC for political contributions data may cause a company to be included in the Index that would not qualify for inclusion if the Index took into account Excluded Contributions. The inclusion of such companies in the Index could negatively affect the value of an investment in the Fund.

New Index Provider Risk — The Index was created by and is owned and maintained by the Adviser, which has not previously been an index provider or investment adviser for a registered fund, which may create additional risks for investing in the Fund. There is no assurance that the Adviser will compile the Index accurately, or that the Index will be reconstituted, rebalanced, calculated or disseminated accurately.

Limited Authorized Participants, Market Makers and Liquidity Providers Risk — Only an Authorized Participant may engage in creation or redemption transactions directly with the Fund. The Fund has a limited number of financial institutions that may act as Authorized Participants. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Fund shares may trade at a material discount to NAV and possibly face delisting: (i) Authorized Participants exit the business or otherwise become unable to process creation and/or redemption orders and no other Authorized Participants step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions. An active trading market for shares of the Fund may not develop or be maintained, and, particularly during times of market stress, Authorized Participants or market makers may step away from their respective roles in making a market in shares of the Fund and in executing purchase or redemption orders.

This could, in turn, lead to variances between the market price of the Fund's shares and the value of its underlying securities.

New Fund Risk — Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

INFORMATION ABOUT PORTFOLIO HOLDINGS

A description of the Fund's policies and procedures with respect to the circumstances under which the Fund discloses its portfolio holdings is available in the Fund's Statement of Additional Information (the "SAI").

INVESTMENT ADVISER

Reflection Asset Management, LLC, a South Carolina limited liability company organized in 2019, serves as the investment adviser to the Fund. The Adviser's principal place of business is 1000 Palm Boulevard, Isle of Palms, South Carolina 29451. As of September 30, 2020, the Adviser had approximately \$13.5 million in assets under management.

The Adviser oversees the day-to-day operations of the Fund, subject to the general supervision and oversight of the Board. The Adviser also arranges for sub-advisory, transfer agency, custody, fund administration, distribution and all other services necessary for the Fund to operate. Further, the Adviser continuously reviews, supervises, and administers the Fund's investment program. In particular, the Adviser provides investment and operational oversight of the Sub-Adviser. The Board supervises the Adviser and establishes policies that the Adviser must follow in its day-to-day management activities. For its services to the Fund, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.75% of the average daily net assets of the Fund.

Under the investment advisory agreement between the Trust, on behalf of the Fund, and the Adviser, the Adviser has agreed to pay all expenses incurred by the Fund except for the advisory fee, interest, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax

liability, extraordinary expenses, and distribution fees and expenses paid by the Fund under any distribution plan adopted pursuant to Rule 12b-1 under the Investment Company Act of 1940 (the “1940 Act”). The Adviser, in turn, compensates the Sub-Adviser from the management fee it receives.

A discussion regarding the basis for the Board’s approval of the Fund’s investment advisory agreement will be available in the Fund’s first Annual or Semi-Annual Report to Shareholders.

SUB-ADVISER

Exchange Traded Concepts, LLC (the “Sub-Adviser”), an Oklahoma limited liability company located at 10900 Hefner Pointe Drive, Suite 207, Oklahoma City, Oklahoma 73120, is responsible for the day-to-day management of the Fund. An SEC-registered investment adviser formed in 2018, the Sub-Adviser is majority owned by Cottonwood ETF Holdings LLC. As of September 30, 2020, the Sub-Adviser had approximately \$4.8 billion under management.

The Sub-Adviser is responsible for trading portfolio securities for the Fund, including selecting broker-dealers to execute purchase and sale transactions or in connection with any rebalancing or reconstitution of the Index, subject to the supervision of the Adviser and the Board. For its services, the Sub-Adviser is entitled to a fee by the Adviser, which fee is calculated daily and paid monthly, at an annual rate of 0.04% based on the average daily net assets of the Fund, and subject to a minimum annual fee of \$20,000.

A discussion regarding the basis for the Board’s approval of the Fund’s sub-advisory agreement will be available in the Fund’s first Annual or Semi-Annual Report to Shareholders.

PORTFOLIO MANAGER

Jason T. Britton, Chief Executive Officer of the Adviser, serves the portfolio manager of the Fund. Mr. Britton has served as the CEO and head portfolio manager of the Adviser since its inception in 2019. Prior to his role at the Adviser, Mr. Britton served as Managing Director and Head Portfolio Manager for thematic/ESG equities for U.S. Trust, a division of Bank of America. Additionally, Mr. Britton is a Professor of Impact Investing in the business school of the College of Charleston.

The SAI provides additional information about the portfolio manager’s compensation, other accounts managed, and ownership of Fund shares.

PURCHASING AND SELLING FUND SHARES

Shares of the Fund are listed for trading on the Exchange. When you buy or sell the Fund's shares on the secondary market, you will pay or receive the market price. You may incur customary brokerage commissions and charges and may pay some or all of the spread between the bid and the offered price in the secondary market on each leg of a round trip (purchase and sale) transaction. The shares of the Fund will trade on the Exchange at prices that may differ to varying degrees from the daily NAV of such shares. A business day with respect to the Fund is any day on which the Exchange is open for business. The Exchange is generally open Monday through Friday and is closed on weekends and the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Fund's NAV is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding. NAV is determined each business day, normally as of the close of regular trading of the New York Stock Exchange (ordinarily 4:00 p.m., Eastern time).

In calculating NAV, the Fund generally values its investment portfolio at market price. If market prices are not readily available or the Fund reasonably believes that they are unreliable, such as in the case of a security value that has been materially affected by events occurring after the relevant market closes, the Fund is required to price those securities at fair value as determined in good faith using methods approved by the Board. Pursuant to the policies adopted by, and under the ultimate supervision of, the Board, these methods are implemented through the Trust's Fair Value Pricing Committee, members of which are appointed by the Board. The Fund's determination of a security's fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value that the Fund assigns to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

There may be limited circumstances in which the Fund would price securities at fair value for stocks of U.S. companies that are traded on U.S. exchanges – for example, if the exchange on which a portfolio security is principally traded closed early or if trading in a particular security was halted during the day and did not resume prior to the time the Fund calculated its NAV.

Fair value pricing involves subjective judgments and it is possible that a fair value determination for a security will materially differ from the value that could be realized upon the sale of the security. In addition, fair value pricing could result in a difference between the prices used to calculate the Fund's NAV and the prices used by the Index. This may result in a difference between the Fund's performance and the performance of the Index.

PAYMENTS TO FINANCIAL INTERMEDIARIES

The Fund and/or the Adviser may compensate financial intermediaries for providing a variety of services to the Fund and/or its shareholders. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates. This section briefly describes how financial intermediaries may be paid for providing these services. For more information, please see "Payments to Financial Intermediaries" in the SAI.

Distribution Plan

The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act that allows the Fund to pay distribution and/or service fees for the sale and distribution of Fund shares, and for services provided to shareholders. No Rule 12b-1 fees are currently paid by the Fund, and there are no plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The maximum annual Rule 12b-1 fee is 0.25% of the average daily net assets of the Fund.

Payments by the Adviser

From time to time, the Adviser and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration and shareholder servicing support for the Fund. These payments are sometimes characterized as "revenue sharing" payments and are made out of the Adviser's and/or its affiliates' own legitimate profits or other resources, and may be in addition to any payments made to financial intermediaries by the

Fund. A financial intermediary may provide these services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial intermediaries may receive payments for making shares of the Fund available to their customers or registered representatives, including providing the Fund with “shelf space,” placing it on a preferred or recommended fund list, or promoting the Fund in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the NAV or price of the Fund’s shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

In addition to these payments, your financial intermediary may charge you account fees, commissions or transaction fees for buying or redeeming shares of the Fund, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request.

OTHER POLICIES

Excessive Trading Policies and Procedures

The Fund does not impose any restrictions on the frequency of purchases and redemptions of Creation Units; however, the Fund reserves the right to reject or limit purchases at any time as described in the SAI. When considering that no restriction or policy was necessary, the Board evaluated the risks posed by arbitrage and market timing activities, such as whether frequent purchases and redemptions would

interfere with the efficient implementation of the Fund's investment strategy, or whether they would cause the Fund to experience increased transaction costs. The Board considered that, unlike traditional mutual funds, shares of the Fund are issued and redeemed only in large quantities of shares known as Creation Units available only from the Fund directly to Authorized Participants, and that most trading in the Fund occurs on the Exchange at prevailing market prices and does not involve the Fund directly. Given this structure, the Board determined that it is unlikely that trading due to arbitrage opportunities or market timing by shareholders would result in negative impact to the Fund or its shareholders. In addition, frequent trading of the Fund's shares by Authorized Participants and arbitrageurs is critical to ensuring that the market price remains at or close to NAV.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Fund Distributions

The Fund distributes its net investment income, if any, at least annually, and makes distributions of its net realized capital gains, if any, at least annually. If you own Fund shares on the Fund's record date, you will be entitled to receive the distribution.

Dividend Reinvestment Service

Brokers may make available to their customers who own shares of the Fund the Depository Trust Company book-entry dividend reinvestment service. If this service is available and used, dividend distributions of both income and capital gains will automatically be reinvested in additional whole shares of the Fund purchased on the secondary market. Without this service, investors would receive their distributions in cash. To determine whether the dividend reinvestment service is available and whether there is a commission or other charge for using this service, consult your broker. Brokers may require the Fund's shareholders to adhere to specific procedures and timetables.

Tax Information

The following is a summary of some important U.S. federal income tax issues that affect the Fund and its shareholders. The summary is based on current tax laws, which may be changed by legislative, judicial or administrative action. You should not consider this summary to be a comprehensive explanation of the tax treatment of the Fund, or the tax consequences of an investment in the Fund. Your investment in the

Fund may have other tax implications. More information about taxes is located in the SAL.

You are urged to consult your tax adviser regarding specific questions as to federal, state and local income taxes.

Tax Status of the Fund

The Fund intends to elect and to qualify each year for the special tax treatment afforded to regulated investment companies under the Code. If the Fund maintains its qualification as a regulated investment company and meets certain minimum distribution requirements, then the Fund is generally not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, if the Fund fails to qualify as a regulated investment company or to meet minimum distribution requirements it would result (if certain relief provisions were not available) in fund-level taxation and consequently a reduction in income available for distribution to shareholders.

Unless you are a tax-exempt entity or your investment in Fund shares is made through a tax-deferred retirement account, such as an IRA, you need to be aware of the possible tax consequences when the Fund makes distributions, you sell Fund shares, and you purchase or redeem Creation Units (Authorized Participants only).

Tax Status of Distributions

The Fund intends to distribute for each year substantially all of its net investment income and net capital gains income.

Dividends and distributions are generally taxable to you whether you receive them in cash or reinvest them in additional shares.

The income dividends you receive from the Fund may be taxed as either ordinary income or “qualified dividend income.” Dividends that are reported by the Fund as qualified dividend income are generally taxable to non-corporate shareholders at a maximum tax rate currently set at 20% (lower rates apply to individuals in lower tax brackets). Qualified dividend income generally is income derived from dividends paid to the Fund by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market. For such dividends to be taxed as qualified dividend income to a non-corporate shareholder, the Fund must satisfy certain holding period requirements with respect to the underlying stock and the non-corporate

shareholder must satisfy holding period requirements with respect to his or her ownership of the Fund's shares. Holding periods may be suspended for these purposes for stock that is hedged.

Taxes on distributions of capital gains (if any) are determined by how long the Fund owned the investments that generated them, rather than how long a shareholder has owned its shares. Sales of assets held by the Fund for more than one year generally result in long-term capital gains and losses, and sales of assets held by the Fund for one year or less generally result in short-term capital gains and losses. Distributions from the Fund's net capital gain (the excess of the Fund's net long-term capital gains over its net short-term capital losses) are taxable as long-term capital gains regardless of how long you have owned your shares. For non-corporate shareholders, long-term capital gains are generally taxable at a maximum tax rate currently set at 20% (lower rates apply to individuals in lower tax brackets). Distributions from the Fund's short-term capital gains are generally taxable as ordinary income.

Corporate shareholders may be entitled to a dividends received deduction for the portion of dividends they receive from the Fund that are attributable to dividends received by the Fund from U.S. corporations, subject to certain limitations.

In general, your distributions are subject to federal income tax for the year in which they are paid. However, distributions paid in January but declared by the Fund to shareholders of record in October, November or December of the previous year will be treated as having been received by shareholders on December 31 of the calendar year in which declared, and thus may be taxable to you in the previous year.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as "buying a dividend" and should be avoided by taxable investors.

The Fund (or your broker) will inform you of the amount and character of any distributions shortly after the close of each calendar year.

Tax Status of Share Transactions

Each sale of Fund shares or redemption of Creation Units will generally be a taxable event. Any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if the shares have been held for more than twelve months. Any capital gain or loss realized upon a sale of Fund shares held for twelve months or less is

generally treated as short-term gain or loss. Any capital loss on the sale of shares held for six months or less is treated as long-term capital loss to the extent distributions of long-term capital gain were paid (or treated as paid) with respect to such shares. Any loss realized on a sale will be disallowed to the extent shares of the Fund are acquired, including through reinvestment of dividends, within a 61-day period beginning 30 days before and ending 30 days after the disposition of shares. The ability to deduct capital losses may be limited.

An Authorized Participant who exchanges securities for Creation Units generally will recognize gain or loss from the exchange. The gain or loss will be equal to the difference between (i) the market value of the Creation Units at the time of the exchange plus any cash received in the exchange and (ii) the Authorized Participant's aggregate basis in the securities surrendered plus any cash paid for the Creation Units. An Authorized Participant who exchanges Creation Units for securities will generally recognize a gain or loss equal to the difference between (i) the Authorized Participant's basis in the Creation Units and (ii) the aggregate market value of the securities and the amount of cash received. The Internal Revenue Service ("IRS"), however, may assert that a loss that is realized upon an exchange of securities for Creation Units may not be currently deducted under the rules governing "wash sales" (for a person who does not mark-to-market their holdings), or on the basis that there has been no significant change in economic position. Authorized Participants should consult their own tax advisor with respect to whether wash sales rules apply and when a loss might be deductible. Any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if shares have been held for more than one year and as a short-term capital gain or loss if shares have been held for one year or less.

The Fund may include cash when paying the redemption price for Creation Units in addition to, or in place of, the delivery of a basket of securities. The Fund may be required to sell portfolio securities in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize investment income and/or capital gains or losses that it might not have recognized if it had completely satisfied the redemption in-kind. As a result, the Fund may be less tax efficient if it includes such a cash payment than if the in-kind redemption process was used.

Foreign Taxes

To the extent the Fund invests in foreign securities, it may be subject to foreign withholding taxes with respect to dividends or interest the Fund received from sources in foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate these taxes.

Net Investment Income Tax

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% Medicare contribution tax on all or a portion of their “net investment income,” which includes interest, dividends, and certain capital gains (including certain capital gain distributions and capital gains realized on the sale of shares of the Fund). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

Non-U.S. Investors

If you are a nonresident alien individual or a foreign corporation, partnership, trust or estate, (i) the Fund’s ordinary income dividends distributed to you will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies but (ii) gains from the sale or other disposition of your shares of the Fund generally are not subject to U.S. taxation, unless you are a nonresident alien individual who is physically present in the U.S. for 183 days or more per year. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if you are a foreign shareholder engaged in a trade or business within the United States or if you are a foreign shareholder entitled to claim the benefits of a tax treaty.

Backup Withholding

The Fund (or financial intermediaries, such as brokers, through which shareholders own shares) generally is required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and the sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she, or it is not subject to such withholding.

The foregoing discussion summarizes some of the consequences under current U.S. federal income tax law of an investment in the Fund. It is not a substitute for personal tax advice. Consult your personal tax

advisor about the potential tax consequences of an investment in the Fund under all applicable tax laws.

More information about taxes is in the SAI.

ADDITIONAL INFORMATION

Continuous Offering

The method by which Creation Units are purchased and traded may raise certain issues under applicable securities laws. Because new Creation Units are issued and sold by the Fund on an ongoing basis, at any point a “distribution,” as such term is used in the Securities Act of 1933 (the “Securities Act”), may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the Prospectus delivery and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Fund’s distributor, breaks them down into individual shares, and sells such shares directly to customers, or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market demand for shares of the Fund. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not “underwriters” but are effecting transactions in shares of the Fund, whether or not participating in the distribution of such shares, are generally required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available with respect to such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker dealer-firms should note that dealers who are not underwriters but are participating in a distribution (as contrasted with ordinary secondary market transactions) and thus dealing with shares of the Fund that are part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act would be unable to take advantage of the prospectus delivery exemption

provided by Section 4(a)(3) of the Securities Act. Firms that incur a prospectus delivery obligation with respect to shares of the Fund are reminded that under Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on the Exchange is satisfied by the fact that the Fund's Prospectus is available on the SEC's electronic filing system. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

Premium/Discount Information

Information regarding how often the shares of the Fund traded on the Exchange at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for various time periods can be found at www.demz.fund.

Contractual Arrangements

The Trust enters into contractual arrangements with various parties, including, among others, the Fund's investment adviser, sub-adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or "third-party") beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This prospectus and the SAI provide information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus, the SAI or any document filed as an exhibit to the Trust's registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Fund and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

FINANCIAL HIGHLIGHTS

Because the Fund has not commenced operations as of the date of this prospectus, financial highlights are not available.

[This Page Intentionally Left Blank]

Privacy Notice

This information is not part of the prospectus.

The Fund recognizes and respects the privacy concerns of its customers. The Fund collects nonpublic personal information about you in the course of doing business with shareholders and investors. “Nonpublic personal information” is personally identifiable financial information about you. For example, it includes information regarding your social security number, account balance, bank account information and purchase and redemption history.

The Fund collects this information from the following sources:

- Information we receive from you on applications or other forms;
- Information about your transactions with us and our service providers, or others;
- Information we receive from consumer reporting agencies (including credit bureaus).

What information the Fund discloses and to whom the Fund discloses information.

The Fund only discloses nonpublic personal information the Fund collects about shareholders as permitted by law. For example, the Fund may disclose nonpublic personal information about shareholders:

- To government entities, in response to subpoenas or to comply with laws or regulations.
- When you, the customer, direct the Fund to do so or consent to the disclosure.
- To companies that perform necessary services for the Fund, such as shareholder servicing centers that the Fund uses to process your transactions or maintain your account.
- To protect against fraud, or to collect unpaid debts.

Information about former customers.

If you decide to close your account(s) or become an inactive customer, we will adhere to the privacy policies and practices described in this notice.

How the Fund safeguards information.

The Fund conducts its business affairs through trustees, officers and third parties that provide services pursuant to agreements with the Fund (for example, the service providers described above). We restrict access to your personal and account information to those persons who need to know that information in order to provide services to you. The Fund or its service providers maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

Customers of other financial institutions.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary will govern how your non-public personal information will be shared with non-affiliated third parties by that entity.
